

UX/UI DESIGNER

DMYTRO ONOFRIENKO

About me

I have been developing websites and user interfaces since 2017. During my career, I have created websites and worked on internal projects for such companies as L'Oreal, Khiels, Nestle, Abbott, La Roche-Posay, and Vichy.

Work experience

Designer, Art Director at Idea Digital Agency

May 2019 – March 2025 – 5 years 9 months | Full-time, Ukraine

I started working at the company on client projects, helping brands launch their businesses and improve existing ones in industries such as telecommunications, e-commerce, healthcare, crypto, SaaS, and many others. I collaborated with other designers, product managers, marketers, and developers. Over time, I took on the role of art director.

In addition, I worked on the company's internal projects as an art director.

Designer at SimWin E-Sports

March 2022 – January 2023 – 10 months | Contract, USA

I worked as a UX/UI designer in a team developing a platform for Fantasy E-Sport in the United States. My responsibilities included developing interfaces for the platform, prototyping, testing, and improving them.

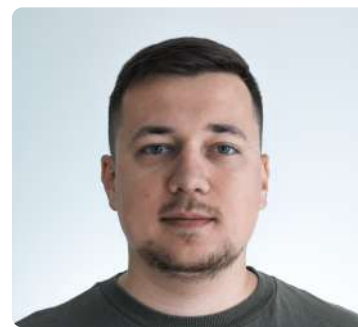

I helped the design and development team transition from Adobe Photoshop to Figma and contributed to creating a design system. In addition, I participated in meetings and gave presentations to the development team and product manager.

Created and set up the process of automating the creation of NFT cards for E-Sport players, as it was necessary to automatically create thousands of cards with unique parameters, with the ability to add or change data.

Freelance

2017 – to date...

I've been working as a freelance designer since 2017 with companies from Ukraine and the United States.
