UX|UI Designer

Dmytro Onofriienko

Experience

Sr. Designer | Brander

March 2025—Present, Full-time

- Worked with some of the largest companies in Ukraine in the retail, pharmacy chains (1.4M+ visits/month), and pharmaceutical manufacturing (200K+ visits/month) sectors on e-commerce projects.
- Developed design concepts and presented and defended design solutions to stakeholders from Ukraine and Europe.
- Created detailed responsive designs with accessibility annotations to ensure high quality and readiness for development handoff: e-commerce stores (Magento), mobile applications (iOS/Android), and promotional landing pages.
- Improved UX and UI of existing products through redesign of key user flows and optimization of user journeys. Expanded product functionality and enhanced core user scenarios.

UX/UI Designer | Idea Digital Agency

May 2019—February 2025, Full-time

Sr. Designer *Apr 2022—Feb 2025*
Responsible for developing visual concepts for brands, ensuring high design quality and consistency across all stages of product development. Key responsibilities:

- Conducted UX analysis and identified improvement opportunities to achieve KPIs through enhancing existing designs and integrating new features.
- Strategically planned new features in close collaboration with stakeholders.
- Oversaw the implementation of new features, ensuring adherence to the existing design system and continuous improvement of the user experience.

Example: increased conversion rates by +20% after improving the checkout flow and product page, and reduced the bounce rate by 10% for a U.S.-based furniture and doors e-commerce store with $500,000 in monthly revenue.

Designer *May 2019 — Apr 2022*
Started at the company working on client projects, helping brands launch new businesses and improve existing ones. Collaborated with a team of designers, product managers, marketers, and developers across industries including telecommunications, e-commerce, beauty, healthcare, cryptocurrencies, SaaS, and non-profit organizations.

UX/UI Designer | SimWin E-Sports

March 2022—January 2023, Contract, USA

Worked as a UX/UI Designer in an international team (primarily Canada and the USA) developing a Fantasy Esports platform for the U.S. market. My responsibilities included:

- Designing platform interfaces, including prototyping, testing, and iterative improvements.
- Helped the design and development teams transition from Adobe Photoshop to Figma and establish a unified design system.
- Participated in and delivered presentations for the development team and the project manager.
- Established an automated process for generating NFT cards for e-sports players.

Freelance

2017—present

Working as a designer and front-end developer, collaborating with clients from Ukraine and US.
